

Xcluder Dispenser Pack Instructions

Thank you for purchasing **Xcluder™ Rodent and Pest Fill**, the industry's most effective product for permanently preventing rodent movement through openings in walls, around pipelines or other small and large rodent traffic routes. Setting up and using the Dispenser Pack makes handling **Xcluder** easier than ever:

1. Unlock the top of the Dispenser Pack by opening the Locking Tab.

2. Remove the Dispenser Pack's contents.

- Wrapped **Xcluder** Fill Roll
- Leather Gloves
- Shears
- Installation Instructions

3. Donning the gloves, unwrap the **Xcluder** fill material.

***Stainless steel fibers are sharp!
Always wear safety glasses and
leather gloves when working with
Xcluder. Cut Xcluder over a trash
receptacle to contain loose fibers.***

4. Place **Xcluder** in the dispenser pack, pulling it through the Dispenser Slot and folding in the Front and Back Axle Tabs.

5. Unroll as much **Xcluder** through the Dispenser Slot as necessary and cut to length. It is recommended to cut **Xcluder** over a trash receptacle to catch any loose fibers.
